Skill Sets

Software Development

- Full stack: JavaScript, React, Node.js, Express.js, MongoDB
- RESTful API design
- Front-end: HTML, CSS, Bootstrap, responsive design
- CI/CD with GitHub Actions
- Deployment: Vercel, Heroku
- Git version control
- Agile teamwork

Teaching & Training

- Curriculum and lesson planning
- Virtual & in-person facilitation
- Student mentoring and development
- Classroom & behavior management
- Adaptive teaching methods

SUMMARY

Ambitious and detail-oriented Full Stack Developer skilled in building robust web applications using JavaScript, React, Node.js, Express.js, and MongoDB. Experienced in designing and implementing RESTful APIs, managing databases, and delivering seamless user experiences with HTML, CSS, and Bootstrap. Proven ability to guide learners through complex technical concepts as a trainer, with strong communication and problem-solving skills. Eager to contribute to innovative development teams and build scalable, efficient software solutions.

EXPERIENCE

Founder / Full Stack Developer

2024 - Current

3 Yellow Circles - Web & App Solutions

- Spearheaded full lifecycle development of responsive, high-performance websites leveraging HTML, CSS, JavaScript, React, Node.js, Express.js and MongoDB
- Crafted and executed branding and visual identity strategies to elevate client presence and drive business objectives
- Cultivated strong client partnerships by delivering customized digital solutions from initial discovery through to successful deployment
- Optimized project workflows and implemented reusable, scalable codebases to accelerate development efficiency and maintain quality
- Directed daily business operations including digital marketing, invoicing, and strategic growth planning to ensure sustainable success

Trainer & Assessor of Web Development

2025 - Current

Equinim College of Technology | Online

- Developed and delivered dynamic, highly interactive virtual web development courses that boosted student engagement and skill mastery across diverse learning styles
- Expertly trained students in front-end technologies - HTML, CSS, JavaScript, and Bootstrap - to create pixel-perfect, responsive, and accessible user interfaces
- Mentored 50+ aspiring developers through end-to-end full-stack projects using Express.js, Node.js, and MongoDB, empowering them to build robust, database-driven applications with real-world CRUD functionality
- Equipped students with advanced skills to design and implement scalable, secure RESTful APIs, enabling seamless and efficient front-end/back-end communication

Production Manager

2024 - 2025

Newcastle Made Joinery | Toronto

- Strategically structured and optimized workshop workflows to consistently meet production targets and tight deadlines
- Collaborated closely with directors, project managers, and external stakeholders to align project scope, timelines, and quality expectations
- Oversaw manufacturing of high-end joinery projects, leveraging expert knowledge of advanced tools, machinery, and CNC programming to deliver precision results...

Skill Sets (cont.)

Management

- Team leadership and development
- Project planning and workflow
- Client and stakeholder liaison
- Problem-solving and decisions
- Training program delivery

Qualifications

2024

Diploma of IT (Web Development)

Equinim College of Technology

2022

Cert IV in Training and Assessment

National Training Masters

2016

Cert III in Shopfitting

TAFE NSW

Traits

- Super easy to work with
- Honest (sometimes too honest)
- Always up for some banter
- Punctual
- Never puts anything in the “too-hard” basket
- Reliable
- Solo operator and team player
- Excellent communication
- Enjoys challenges

EXPERIENCE (CONT.)

Production Manager (cont.)

2024 - 2025

Newcastle Made Joinery I Toronto

- Led and mentored production staff, driving skills development and fostering a high-performance culture to maximize team efficiency and output
- Facilitated regular team meetings to address challenges and implement innovative problem-solving strategies, enhancing project execution and future planning

Detailed Joiner / Staff Training Facilitator

2022 - 2024

Pluim Joinery I Lisarow

- Led comprehensive training programs for staff and apprentices, delivering hands-on instruction and mentorship to accelerate skill development and technical proficiency
- Designed and implemented tailored upskilling initiatives, including CNC programming workshops, to empower team members and improve overall performance
- Fostered a supportive learning environment by coaching individuals and providing ongoing feedback, enabling staff to confidently take on increasingly complex tasks
- Collaborated with management to align training goals with project timelines, ensuring workforce readiness and consistently exceeding deadlines
- Acted as a key resource for knowledge transfer, promoting best practices and continuous professional growth across the team

Teacher of Cabinet Making

2022 - 2023

TAFE NSW I Lidcombe

- Cultivated engaging and supportive learning environments that fostered critical thinking, adaptability, and problem-solving - key skills for success in fast-paced tech teams
- Developed and delivered clear, structured lesson plans using varied teaching methods to meet diverse learner needs, ensuring strong comprehension and practical skill mastery
- Applied effective communication and behavior management techniques to maintain positive, focused classrooms, transferable to remote or in-person team leadership and training
- Encouraged hands-on learning and real-world application, promoting learner confidence and independence - essential for onboarding and mentoring developers
- Facilitated group discussions and collaborative activities to build teamwork, communication, and continuous improvement mindsets applicable to agile development environments

Detailed Joiner / Foreman

2018 - 2022

Logic Joinery I Fountaindale

- Led and supervised cross-functional teams to optimize workflow, delivering targeted training and mentorship to apprentices and staff for skill growth and productivity
- Directed project execution with a hands-on approach, proactively resolving operational challenges to ensure smooth, on-time delivery
- Partnered effectively with directors and project managers to align resources, meet deadlines, and surpass project goals
- Applied strong organizational and managerial skills in a detail-oriented environment, driving quality outcomes through effective team coordination and process management
